A TALE OF ANCIENT GOLD

The story unfolds as Grandpa Mori leads the 3 Ninjas (Rocky, the eldest brother, Colt, the middle brother, and Tum Tum, the youngest brother) in the final stages of his Ninjitsu training program. Old Mori may look like an old man, but he sure doesn't move like one as he eludes the young warriors time after time. No one is hurt as they scuffle and toss each other across the forest in the session.

Once the training is complete, Mori tells the youngsters that he must return to his village in Japan to present a ceremonial dagger to the winner of a martial arts tournament. Legend has it that the dagger makes up part of the necessary "key" to unlock a mystical cave of gold. Mori never fell for the legend, but his rival of long ago does. Word has spread of Mori's return to his native land and evil plots have begun to rid Mori of his coveted dagger.

Can the 3 ninjas save their grandfather and deliver the dagger to the rightful owner?

SURVIVAL SKILLS

Practice, practice, practice! Work on your jump and attack skills to perfect your timing. Mastering each character's moves will enable you to win!

Learn to maneuver behind your enemies. Do not let them get a free shot at your back! That will always prove fatal!

Watch your life meter and special weapons counter to make sure you know the risks before diving into a new attack!

Fighting while hand-over-hand is tricky. Limit these encounters as best as you can.

There are several hidden areas that can only be opened by a bomb blast. They hide valuable treasures . . .

Passwords are awarded after succeeding most rounds. Write these down so you don't have to replay the entire level. You can choose a new player when you begin with a password to explore the area with a new set of talents!

BATTLE SITES

Stage 1: The Woods

Mori completes your training in the peaceful surroundings of a heavily trapped area in the woods. (This guy is on your side?)

Stage 2A: The Cabin

Slap around a bunch of grundgers and let them know who is the boss around here!

Stage 2B: The Cave

Subterranean location filled with treasures and danger!

Stage 3: The Hospital

Mori is in here trying to recuperate from an accident.

Stage 4: Japanese Garden

Serene beauty hides many deadly traps!

Stage 4: The Dojo

This is where the conflict began fifty years ago . . .

Stage 5: Castle Osaka

Legend has it there is a cave of gold located here. If you only had the keys . . .

COMBINED ACTIONS

• Down + B Button:

On 'Jump-through' platform:

If you are on a jump-through platform and you press Down and the jump button, you can drop down through and also grab on to a hang-on if there is a hang-on below.

• Up + A Button:

Defensive Move. If you are blocking and press the attack button, then you do an over head defensive slashing move.

• Down + Left or Right:

Crawl on hands and knees.

THE BAD GUYS

Samurai: Not merely guys in sharp suits, but mean, organized guys in sharp suits. Do not treat lightly—they always mean business.

Sumo Wrestlers: Tum Tum's idols, these guys can put a dent in a concrete bench. Maybe not as fast as the 3 Ninjas, but they pack a terrific punch!

Nurse Shibuyu: Mori wanted her listed here. I guess good hospital help is hard to find . . .

THE BAD GUYS

So what kind of fun would a heroic game be without some tough bad guys to kick around? In view of this we have assembled some of the meanest baddies from here to Yokohama Bay for your heroic assaults. We hope you enjoy!

The "Other" Ninjas: They come in all shapes and sizes, but mostly they are either wearing Black, Red or Gold outfits. The Gold ones are really tough!

The Grundgers: Glam, Slam, and Vinnie always turn up when you least expect them. The least they could do is turn into a wisp of smoke and blow away, but no, they just keep coming back for more.

COMBINED ACTIONS

• B Button + A Button:

Flying Kick.

• Up + B Button:

Grab Hang-ons. Hold Up when jumping to catch on to over hangs. Push Up and the jump button again to pull yourself up.

• A Button + B Button:

Special Move. Like Tum Tum's roll attack or Colt's somersault, these moves take away energy from the players. Use these moves wisely in panic situations.

CHARACTER PROFILE

The 3 Ninjas have definite strengths, abilities and moves that are unique to each other. Listed below are the specifics regarding them:

Rocky - Eldest brother

Weapon of choice: Staff
Special Move: Spinning Kick
Secondary Weapon: Shurikens (Throwing Stars). Rocky launches out 3 shurikens at any one time and they fan out as they travel away from him. The pattern of flight is 1 upwards, 1 straight ahead, and 1 downwards.

Colt - Middle brother

Weapon of choice: Sword
Special Move: Spinning Blade
Secondary Weapon: Daggers. He can fire up to three daggers at any time.

Tum Tum - Youngest brother

Weapon of choice: Sai (Lunging, jabbing weapon)
Special Move: Rolling Attack
Secondary Weapon: Miniature Sais. He can fire up to four sais at any time.

SPECIAL MOVES AND OBJECTS

Each of the players interact with items, objects and the scenery in a special manner. They can literally grab on to various portions of the background to enable them to advance in a level. Listed below are some of these features:

Trampolines: Not only can you jump on these items to gain higher ground, but you can move them to the best position for your character as well. Discover the proper button combination to master the trampoline technique and launch yourself to new heights.

Recessed Areas: Alcoves in shadow conceal small ninjas well. Locate these precious areas and use them to your advantage to time an attack or temporarily retreat from a powerful foe!

Deadly Objects: Discover which background items can be used against your foes and time the attack.

Special Hand Holds: Grab on to a rope, a vine, a tree branch and propel yourself higher than a regular jump. Chain a series of these moves to cover near impossible grounds!

Crawling: Not a cowardly move, but a manner in which a ninja moves with caution and stealth. Discover secret bonus areas and hidden rooms by moving close to the ground! Remember, you must first crouch before you can crawl.

Using Secondary Weapon: Press the Secondary Weapon Button to activate the special 'bombs' that you recover throughout the levels. These items pack a wallop and come in handy when facing a difficult foe!

Going Hand-Over-Hand: Sometimes you will need to suspend yourself over deadly ground. Hint: Move quickly!
